

Reinforced Water Activated Gum Paper Tape

Date of issue 22/05/23

Applications

Carton Packaging – Medium to Heavy Duty

Component

Kraft Paper sandwich Laminate

Cross Weave Reinforced Fibre Glass – for Transverse and Longitudinal Strength

Natural Remoistenable Gum

Tamper Proof, Pilfer-proof, Tears of Cartons upon pulling

Physical Properties

Backing	Tri-way Scrim Reinforced Kraft Paper
----------------	--------------------------------------

Adhesive	Natural Starch Based
-----------------	----------------------

Total Thickness	140µm +/- 5µm
------------------------	---------------

Tensile Strength (MD)	> 19.1 kg/inch
------------------------------	----------------

Tensile Strength (TD)	> 8 kg/inch
------------------------------	-------------

Elongation	<6%
-------------------	-----

Bonding to Paper	Permanent
-------------------------	-----------

Initial Wet Tack (Ball Test)	10-12 cm
-------------------------------------	----------

Shear Resistance (Holding Power)	>10000 minutes
---	----------------

Colour	Brown, White
---------------	--------------

Temperature Resistance	-30 °C to 80 °C
-------------------------------	-----------------

Sizes:	60mm x 45m
---------------	------------

Jumbo Size:	1060mm x 500mtrs
--------------------	------------------

Inner core diameter:	25mm
-----------------------------	------

Standard Color:	Brown, with up to 2 Colour Print
------------------------	----------------------------------
