IS400RW Round Wire Impulse Heat Sealer

Product description

Impulse heat sealing is a fast and efficient means of sealing polythene bags, layflat tubing and shrink films.
A round wire heating element simultaneously seals and cuts the film so doesn't require an additional operation.

Product data

~ wire diameter	0.7mm
~ wire length	426mm
~ maximum sealing length	400mm
~ maximum sealing thickness	2 x 15mu
~ power supply	230V 50Hz
~ power consumption	750W
~ fuse	6.3A
~ weight	5.5kg
